

*It's Your Future -
You Decide!*

Read the newspaper headlines about waste, below. They have all been taken from newspaper's in the last couple of years. Use these and your own research to write a fictional newspaper article set 50 years in the future about the current state of affairs with regard to waste. As the headlines suggest, it could be a brighter or more dismal future!

Taxes to rise unless more rubbish is recycled.

Waste fumes can damage children's fertility.

Rat explosion... Is this the real cost of fewer bin collections?

Free garden waste collection comes at a price.

Rethink Waste Not Bins.

How we dump waste equivalent to our weight every seven weeks.

Household rubbish falls as recycling increases.

Where there's rubbish there's money!...
